Safety Precautions

Meanings of symbols displayed on indoor unit and/or outdoor unit

	Warning (Risk of fire)	This unit uses a flammable refrigerant. If refrigerant leaks and comes in contact with fire or heating part, it will create harmful gas and there is risk of fire.
	Read the OPERATING INSTRUCTIONS carefully before operation.	
	Service personnel are required to carefully read the OPERATING INSTRUCTIONS and INSTALLATION MANUAL before operation.	
	Further information is available in the OPERATING INSTRUCTIONS, INSTALLATION MANUAL, and the like.	

- Since rotating parts and parts which could cause an electric shock are used in this product, be sure to read these "Safety Precautions" before use.
- Since the cautionary items shown here are important for safety, be sure to observe them.
- After reading this manual, keep it together with the installation manual in a handy place for easy reference.
- Wi-Fi® is a registered trademark of Wi-Fi Alliance®.

Marks and Their Meanings

-  **Warning :** Incorrect handling could cause serious hazard, such as death, serious injury, etc. with a high probability.
-  **Caution :** Incorrect handling could cause serious hazard depending on the conditions.

Meanings of Symbols Used in This Manual

-  : Be sure not to do.
-  : Be sure to follow the instruction.
-  : Never insert your finger or stick, etc.
-  : Never step onto the indoor/outdoor unit and do not put anything on them.
-  : Danger of electric shock. Be careful.
-  : Be sure to disconnect the power supply plug from the power outlet.
-  : Be sure to shut off the power.
-  : Risk of fire.
-  : Never touch with wet hand.
-  : Never splash water on the unit.

 Warning	
	<p>Do not connect the power cord to an intermediate point, use an extension cord, or connect multiple devices to a single AC outlet.</p> <ul style="list-style-type: none"> • This may cause overheating, fire, or electric shock.
	<p>Make sure the power plug is free of dirt and insert it securely into the outlet.</p> <ul style="list-style-type: none"> • A dirty plug may cause fire or electric shock.
	<p>Do not bundle, pull, damage, or modify the power cord, and do not apply heat or place heavy objects on it.</p> <ul style="list-style-type: none"> • This may cause fire or electric shock.
	<p>Do not turn the breaker off/on or disconnect/connect the power plug during operation.</p> <ul style="list-style-type: none"> • This may create sparks, which can cause fire. • After the indoor unit is switched off with the remote controller, make sure to turn the breaker off or disconnect the power plug.
	<p>Do not expose your body directly to cool air for a prolonged length of time.</p> <ul style="list-style-type: none"> • This could be detrimental to your health.
	<p>The unit should not be installed, relocated, disassembled, altered, or repaired by the user.</p> <ul style="list-style-type: none"> • An improperly handled air conditioner may cause fire, electric shock, injury, or water leakage, etc. Consult your dealer. • If the power supply cord is damaged, it must be replaced by the manufacturer or its service agent in order to avoid a hazard.
	<p>When installing, relocating, or servicing the unit, make sure that no substance other than the specified refrigerant (R32) enters the refrigerant circuit.</p> <ul style="list-style-type: none"> • Any presence of foreign substance such as air can cause abnormal pressure rise and may result in explosion or injury. • The use of any refrigerant other than that specified for the system will cause mechanical failure, system malfunction, or unit breakdown. In the worst case, this could lead to a serious impediment to securing product safety.
	<p>This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.</p>
	<p>Children should be supervised to ensure that they do not play with the appliance.</p>

	<p>Do not insert your finger, a stick, or other objects into the air inlet or outlet.</p> <ul style="list-style-type: none"> • This may cause injury, since the fan inside rotates at high speeds during operation.
	<p>In case of an abnormal condition (such as a burning smell), stop the air conditioner and disconnect the power plug or turn the breaker off.</p> <ul style="list-style-type: none"> • A continued operation in the abnormal state may cause a malfunction, fire, or electric shock. In this case, consult your dealer.
	<p>When the air conditioner does not cool or heat, there is a possibility of refrigerant leakage. If any refrigerant leakage is found, stop operations and ventilate the room well and consult your dealer immediately. If a repair involves recharging the unit with refrigerant, ask the service technician for details.</p> <ul style="list-style-type: none"> • The refrigerant used in the air conditioner is not harmful. Normally, it does not leak. However, if refrigerant leaks and comes in contact with fire or heating part of such a fan heater, kerosene heater, or cooking stove, it will create harmful gas and there is risk of fire.
	<p>The user should never attempt to wash the inside of the indoor unit. Should the inside of the unit require cleaning, contact your dealer.</p> <ul style="list-style-type: none"> • Unsuitable detergent may cause damage to plastic material inside the unit, which may result in water leakage. Should detergent come in contact with electrical parts or the motor, it will result in a malfunction, smoke, or fire. • The appliance shall be stored in a room without continuously operating ignition sources (for example: open flames, an operating gas appliance or an operating electric heater). • Be aware that refrigerants may not contain an odour. • Do not use means to accelerate the defrosting process or to clean the appliance, other than those recommended by the manufacturer. • Do not pierce or burn.
	<p>The indoor unit must be installed in rooms which exceed the floor space specified. Please consult your dealer.</p>
	<p>This appliance is intended to be used by expert or trained users in shops, in light industry and on farms, or for commercial use by lay persons.</p>

Safety Precautions

EN

⚠ Caution

	<p>Do not touch the air inlet or the aluminum fins of the indoor/outdoor unit.</p> <ul style="list-style-type: none"> This may cause injury.
	<p>Do not use insecticides, flammable sprays, air refreshers, or anti-bacterial agents on the unit.</p> <ul style="list-style-type: none"> This may cause a fire or deformation of the unit.
	<p>Do not expose pets or houseplants to direct airflow.</p> <ul style="list-style-type: none"> This may cause injury to the pets or plants.
	<p>Do not place other electric appliances or furniture under the indoor/outdoor unit.</p> <ul style="list-style-type: none"> Water may drip down from the unit, which may cause damage or malfunction.
	<p>Do not leave the unit on a damaged installation stand.</p> <ul style="list-style-type: none"> The unit may fall and cause injury.
	<p>Do not step on an unstable bench to operate or clean the unit.</p> <ul style="list-style-type: none"> This may cause injury if you fall down.
	<p>Do not pull the power cord.</p> <ul style="list-style-type: none"> This may cause a portion of the core wire to break, which may cause overheating or fire.
	<p>Do not charge or disassemble the batteries, and do not throw them into a fire.</p> <ul style="list-style-type: none"> This may cause the batteries to leak, or cause a fire or explosion.
	<p>Do not operate the unit for more than 4 hours at high humidity (80% RH or more) and/or with windows or outside door left open.</p> <ul style="list-style-type: none"> This may cause the water condensation in the air conditioner, which may drip down, wetting or damaging the furniture. The water condensation in the air conditioner may contribute to growth of fungi, such as mold.
	<p>Do not use the unit for special purposes, such as storing food, raising animals, growing plants, or preserving precision devices or art objects.</p> <ul style="list-style-type: none"> This may cause deterioration of quality, or harm to animals and plants.
	<p>Do not expose combustion appliances to direct airflow.</p> <ul style="list-style-type: none"> This may cause incomplete combustion.
	<p>Never put batteries in your mouth for any reason to avoid accidental ingestion.</p> <ul style="list-style-type: none"> Battery ingestion may cause choking and/or poisoning.

Before cleaning the unit, switch it off and disconnect the power plug or turn the breaker off.

- This may cause injury, since the fan inside rotates at high speeds during operation.

When the unit will be unused for a long time, disconnect the power plug or turn the breaker off.

- The unit may accumulate dirt, which may cause overheating or fire.

Replace all batteries of the remote controller with new ones of the same type.

- Using an old battery together with a new one may cause overheating, leakage, or explosion.

If the battery fluid comes in contact with your skin or clothes, wash them thoroughly with clean water.

- If the battery fluid comes in contact with your eyes, wash them thoroughly with clean water and immediately seek medical attention.

Ensure that the area is well-ventilated when the unit is operated together with a combustion appliance.

- Inadequate ventilation may cause oxygen starvation.

Do not operate the air conditioner after applying protecting agent on the floor.

- Components in the protecting agent may attach to the inside of the indoor unit, resulting in water leakage or splattering of dew.

Turn the breaker off when you hear thunder and there is a possibility of a lightning strike.

- The unit may be damaged if lightning strikes.

After the air conditioner is used for several seasons, perform inspection and maintenance in addition to normal cleaning.

- Dirt or dust in the unit may create an unpleasant odor, contribute to growth of fungi, such as mold, or clog the drain passage, and cause water to leak from the indoor unit. Consult your dealer for inspection and maintenance, which require specialized knowledge and skills.

Do not operate switches with wet hands.

- This may cause electric shock.

Do not clean the air conditioner with water or place an object that contains water, such as a flower vase, on it.

- This may cause fire or electric shock.

Do not step on or place any object on the outdoor unit.

- This may cause injury if you or the object falls down.

! Important

Dirty filters cause condensation in the air conditioner which will contribute to the growth of fungi such as mold. It is therefore recommended to clean air filters every 2 weeks.

Before starting the operation, ensure that the horizontal vanes are in the closed position. If operation starts when the horizontal vanes are in the open position, they may not return to the correct position.

Safety Precautions

For Installation

 Warning	
	Consult your dealer for installing the air conditioner. <ul style="list-style-type: none">It should not be installed by the user since installation requires specialized knowledge and skills. An improperly installed air conditioner may cause water leakage, fire, or electric shock.
	Provide a dedicated power supply for the air conditioner. <ul style="list-style-type: none">A non-dedicated power supply may cause overheating or fire.
	Do not install the unit where flammable gas could leak. <ul style="list-style-type: none">If gas leaks and accumulates around the outdoor unit, it may cause an explosion.
	Earth the unit correctly. <ul style="list-style-type: none">Do not connect the earth wire to a gas pipe, water pipe, lightning rod, or a telephone earth wire. Improper earthing may cause electric shock.
 Caution	
	Install an earth leakage breaker depending on the installation location of the air conditioner (such as highly humid areas). <ul style="list-style-type: none">If an earth leakage breaker is not installed, it may cause electric shock.
	Ensure that the drain water is properly drained. <ul style="list-style-type: none">If the drain passage is improper, water may drip down from the indoor/outdoor unit, wetting and damaging the furniture.
In case of an abnormal condition Immediately stop operating the air conditioner and consult your dealer.	

For Wi-Fi Interface

 Warning	
(Improper handling may have serious consequences, including serious injury or death.)	
	This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
	Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
	Do not use the Wi-Fi interface nearby the medical electrical equipment or people who have a medical device such as a cardiac pacemaker or an implantable cardioverter-defibrillator. <ul style="list-style-type: none">It can cause an accident due to malfunctions of the medical equipment or device.
	Do not install the Wi-Fi interface nearby the automatic control devices such as automatic doors or fire alarms. <ul style="list-style-type: none">It can cause accidents due to malfunctions.
	Do not touch the Wi-Fi interface with wet hands. <ul style="list-style-type: none">It can cause damage to the device, electric shock, or fire.
	Do not splash water on the Wi-Fi interface or use it in a bathroom. <ul style="list-style-type: none">It can cause damage to the device, electric shock, or fire.
	When the Wi-Fi interface is dropped, or the holder or cable is damaged, disconnect the power supply plug or turn the breaker off. <ul style="list-style-type: none">It may cause fire or electric shock. In this case, consult your dealer.
 Caution	
(Improper handling may have consequences, including injury or damage to building.)	
	Do not step on unstable stepstool to set up or clean the Wi-Fi interface. <ul style="list-style-type: none">It may cause injury if you fall down.
	Do not use the Wi-Fi interface nearby other wireless devices, micro-waves, cordless phones, or facsimiles. <ul style="list-style-type: none">It can cause malfunctions.

Disposal

Fig. 1

To dispose of this product, consult your dealer.

Note:

This symbol mark is for EU countries only.
This symbol mark is according to the directive 2012/19/EU Article 14 Information for users and Annex IX, and/or to the directive 2006/66/EC Article 20 Information for end-users and Annex II.

Your MITSUBISHI ELECTRIC product is designed and manufactured with high quality materials and components which can be recycled and/or reused. This symbol means that electrical and electronic equipment, batteries and accumulators, at their end-of-life, should be disposed of separately from your household waste.

If a chemical symbol is printed beneath the symbol (Fig. 1), this chemical symbol means that the battery or accumulator contains a heavy metal at a certain concentration. This will be indicated as follows:

Hg: mercury (0.0005%), Cd: cadmium (0.002%), Pb: lead (0.004%)

In the European Union there are separate collection systems for used electrical and electronic products, batteries and accumulators.

Please, dispose of this equipment, batteries and accumulators correctly at your local community waste collection/recycling centre.

Please, help us to conserve the environment we live in!

Name of Each Part

Indoor unit

Outdoor unit

Outdoor units may be different in appearance.

*1 The manufacturing year and month are indicated on the spec name plate.

*2 When the remote controller cannot be used...

Emergency operation can be activated by pressing the emergency operation switch (E.O. SW) on the indoor unit.

Each time the E.O. SW is pressed, the operation changes in the following order:

Emergency cooling operation Emergency heating operation Stop

Set temperature : 24°C
 Fan speed : Medium
 Horizontal vane : Auto

Preparation Before Operation

Before operation: Insert the power supply plug into the power outlet and/or turn the breaker on.

Installing the remote controller batteries

Setting current time

Preparation Before Operation

Remote controller

Time, timer set button

Change the time forward/backward

ON (On timer) : The unit turns on at the set time.

OFF (Off timer) : The unit turns off at the set time.

Press **▲** (forward) and **▼** (backward) to set the time of timer.

Weekly timer set buttons

Press **EDIT/SEND SET** to enter the weekly timer setting mode.

Press **DAY** and **1~4** to select setting day and number.

Press **ON/OFF**, **TIME**, and **TEMP** to set on/off, time, and temperature.

Press **EDIT/SEND SET** to complete and transmit the weekly timer setting.

Press **WEEKLY TIMER ON/OFF** to turn the weekly timer on. (**WEEKLY** lights.)

Press **WEEKLY TIMER ON/OFF** again to turn the weekly timer off. (**WEEKLY** goes out.)

OFF/ON

Off/On (stop/operate) button

MODE

Operation select button

TEMP

Temperature buttons

Each press raises or lowers the temperature by 1°C.

FAN

Fan speed control button

VANE

Up-down airflow control button

Left-right airflow direction

Move the vertical vane manually before starting operation.

i save

I-SAVE button

A simplified set back function enables to recall the preferred (preset) setting with a single push of the **i save** button. Press the button again and you can go back to the previous setting in an instance.

ECONO COOL

ECONO COOL operation button

The set temperature and the airflow direction are automatically changed by the microprocessor.

NIGHT MODE

NIGHT MODE operation button

NIGHT MODE operation changes the brightness of the operation indicator, disables the beep sound and limits the noise level of the outdoor unit.

PURIFIER

Air Purifying Operation button

In the air purifying operation, the indoor unit built-in device reduces airborne fungi, viruses, mold, and allergens.

Cleaning

Instructions:

- Switch off the power supply or turn off the breaker before cleaning.
- Be careful not to touch the metal parts with your hands.
- Do not use benzine, thinner, polishing powder, or insecticide.
- When dirt stands out, wash it with kitchen neutral detergent diluted with lukewarm water to the specified concentration, then wipe off the detergent with a damp towel.
- Do not use a scrubbing brush, a hard sponge, or the like.
- Do not soak or rinse the horizontal vane.
- Do not use water hotter than 50°C.
- Do not expose parts to direct sunlight, heat, or fire to dry.
- Do not apply excessive force on the fan as it may cause cracks or breakage.

Air filter (Air purifying filter)

- **Clean every 2 weeks**
- Remove dirt by a vacuum cleaner, or rinse with water.
- After washing with water, dry it well in shade.

Front panel

1. Lift the front panel until a "click" is heard.
2. Hold the hinges and pull to remove as shown in the illustration above.
 - Wipe with a soft dry cloth or rinse it with water.
 - Do not soak it in water for more than two hours.
 - Dry it well in shade.
3. Install the front panel by following the removal procedure in reverse. Close the front panel securely and press the positions indicated by the arrows.

Air purifying device (VGKP type only)

Every 3 months:

- Remove dirt by a vacuum cleaner.

When dirt cannot be removed by vacuum cleaning:

- Soak the filter together with its frame in lukewarm water and rinse it.
- After washing, dry it well in shade.

Air cleaning filter

(V Blocking Filter, VGKP type: option)

Every 3 months:

- Remove dirt by a vacuum cleaner.

When dirt cannot be removed by vacuum cleaning:

- Soak the filter and its frame in lukewarm water before rinsing it.
- After washing, dry it well in shade. Install all tabs of the air filter.

Every year:

- Replace it with a new air cleaning filter for best performance.
- Parts Number **MAC-2470FT-E**

Pull to remove from the air filter

Important

- **Clean the filters regularly for best performance and to reduce power consumption.**
- **Dirty filters cause condensation in the air conditioner which will contribute to the growth of fungi such as mold. It is therefore recommended to clean air filters every 2 weeks.**

This information is based on **REGULATION (EU) No 528/2012**

When You Think That Trouble Has Occurred

In the following cases, stop using the air conditioner and consult your dealer.

- When water leaks or drips from the indoor unit.
- When the left operation indicator lamp blinks.
- When the breaker trips frequently.
- The remote control signal is not received in a room where an electronic ON/OFF type fluorescent lamp (inverter-type fluorescent lamp, etc.) is used.
- Operation of the air conditioner interferes with radio or TV reception. An amplifier may be required for the affected device.
- When an abnormal sound is heard.
- When any refrigerant leakage is found.
